The Gardens of Marqueyssac

Children will love wandering the winding paths, spotting peacocks, and climbing to the panoramic viewpoints overlooking the Dordogne Valley.

Explore a fascinating cliffside fortress with caves, medieval lifting machines, and summer demonstrations that bring history to life for young explorers.

Étang de Bos

Sarlat-la-Canéda

Stroll through the beautiful medieval streets, enjoy street performers, browse colourful markets, and treat the kids to an ice cream in one of France's prettiest towns.

Canoeing on the Dordogne

A gentle paddle down the Dordogne River offers a fun adventure with castles, wildlife, and plenty of places to stop for a picnic or a swim.

Château de Castelnaud

A favourite with children thanks to its impressive collection of medieval weapons, interactive exhibits, and spectacular castle views over the valley.

Recommended Days Out

Beynac, Domme and Roque Gageac (following the Dordogne valley road)

All three villages boast the "*plus beaux villages*" (most beautiful villages of France, of which there are only 148 across France) with spectacular views. Visit the castle at the top of Beynac as well as the cave settlement at Roque Gageac. Domme is the prettiest but also attracts the most tourists. It sits at the top of a plateau and is a bastide village; this makes access in the height of summer quite difficult.

Caves

Drawings

Font de Gaume situated in Les Eyzies holds over 200 polychrome paintings and is considered the best example of polychrome painting other than Lascaux, which is now closed to the public. The paintings in Font de Gaume include depictions of more than 80 bison, approximately 40 horse depictions, and more than 20 mammoth depictions. Groups are limited to 12 per tour so it will be necessary to book your tour online through their website <https://tickets.monumentsnationaux.fr>.

Tamnies River Beach

Tamnies

Chill out at the river beach in **Tamnies** which has rafts to swim out to, slides, tennis court, boules and kiosk which sells coffee and ice-cream. A life guard is on duty in the season. There are plenty of picnic tables available.

From Pechboutier take the road to Les Eyzies, turn right at the top away from Les Eyzies. Carry on this road for about 1.5kms. Further on your left you will see the sign for Tamnies. Follow all the signs for Tamnies or Etang de Tamnies. Stay on this road and do not turn up to Tamnies village itself. The river beach is on your right and cannot be missed. Price of entry is about a Euro per person.

Château de Castelnaud & Gardens of Marqueyssac

Get a twin ticket for these two. The castle is interesting, with examples of armour and armory – especially the medieval catapults. You get a real sense of how it was to live in these times with videos and live demonstrations of iron work.

Chateau de Castelnaud

Gardens of Marqueyssac

Then visit the gardens which are located on top of a plateau. The views overlooking the Dordogne are breathtaking and there is an electric car which picks you up at the far end of the plateau if you have walked enough! In July and August the gardens are open every Thursday evening from 7pm until midnight and are lit by little night lights. Well worth a visit.

Rocamadour & Gouffe de Padirac

Rocamadour

Gouffe de Padirac

Rocamadour is about an hour and a half away. It is well worth combining a visit with the best caves of the area. An historic shrine perched on a limestone cliff, Rocamadour tells a story of religious belief and human endeavor. Looking out over the gorge of the River Alzou, this city, devoted to the Virgin Mary has remained for over nine hundred years a symbol of faith and hope. If you wish to eat, stop at the café located on the main street at the bottom of the steps that lead up to the church, it has toys on the tables but I can't remember the name!

The **Gouffe de Padirac** is a natural, 75 meter chasm that shows on the limestone plateau of the "Causse de Gramat" in the Lot, below which, at 103 meters underground, flows a river. On descending 103 meters to reach the underground river, take either the lift or the stairs, you are at the start of a mystery voyage 500 meters long. Open from April.

Château des Milandes

Once the home of entertainer Josephine Baker, this elegant château combines beautiful gardens, fascinating history, and a spectacular daily birds of prey display, making it a memorable visit for the whole family.

Sarlat-la-Canéda

One of France's best-preserved medieval towns, Sarlat is famous for its bustling Saturday market, where the streets come alive with local produce and artisan stalls. Its beautifully preserved historic centre has also featured in many films and TV productions, making it a wonderful

Hot Air Balloon Flight

For a truly unforgettable experience, take a sunrise or sunset hot air balloon flight over the Dordogne Valley and enjoy breathtaking views of the river, medieval villages, and magnificent castles from above.
